PROFILE

Full Stack Web Developer and Computer Science student passionate about building real-world applications that integrate AI to create smarter, more efficient digital experiences. Focused on React, Node.js, and modern web architectures, with a growing interest in how machine learning can enhance everyday tools.

SKILLS

- JavaScript
- TypeScript
- React.js / Next.js
- Node.js
- REST APIs
- React Query
- PostgreSQL
- Tailwind CSS
- JSON Web Token (JWT)
- Python
- Machine Learning (basics)

EDUCATION

- Siddhartha Institute of Technology & Science**
B.Tech, Computer Science
2023 – May 2027
- Narayana Junior College**
Intermediate, MPC
- Sage School**
10th Standard

CERTIFICATIONS

- Database Foundations: Intro to Databases
- Introduction to Web Development with ChatGPT
- Getting Started as a Full-Stack Web Developer

INTERESTS

 AI in Web Dev

 Nutrition Tech

 Fullstack Architecture

EXPERIENCE

Unified Mentor Pvt Ltd
MERN Stack Intern

Nov 2025 – Feb 2026
Hyderabad

- Built full-stack web applications as part of a guided MERN stack programme.
- Implemented user authentication, REST API integration, and UI design using TypeScript.
- Developed efficient data fetching and state management with React Query, including loading and error state handling.
- Strengthened understanding of frontend-backend integration and real-world application workflows.

PROJECTS

**FitMeals**

In Progress

Apr 2026 – Present

AI-Powered Food Delivery & Nutrition Platform

AI features: Nutrition Finder • Personalised Diet Plan Generator • Food Image Recognition

- Developed a full-stack food delivery platform with role-based dashboards for customers, hotel owners, and delivery partners.
- Implemented a Health Tracker to log and analyse daily food intake and suggest improvements.
- Added subscription-based meal plans, cookbooks, and bilingual support (English & German).

Next.js • TypeScript • PostgreSQL • REST APIs • Tailwind CSS

**Breeze**Apr 2025 – May 2025

UI Practice Project (Learning Purpose)

- Developed a frontend-focused project to practice UI/UX design and state management.
- Implemented loading states, error handling, and smooth user interactions.
- Integrated basic backend to understand API communication.
- This project was created primarily for learning and strengthening frontend fundamentals.

React.js • JavaScript • Tailwind CSS
